GUIDELINES AND PROCEDURES

(Attachment to Article VI)

Article VI, Section 3 of the Fire District Rules and Regulations states the minimum annual training requirements for active duty firefighters. It is noted that “New Firefighters” (those with less than 1 year of active service) are covered by requirements in Section 2 of this Article. The requirements for “Active Duty Firefighters” include annual OSHA refresher training, minimum of 6 drills, maintain an active CPR card and basic First Aid card.

To document the procedure that the District will follow as to those firefighters not completing the annual requirements of Article VI, the following motion was made, seconded and approved at the Fire District meeting of December 12, 2016.

Motion: Any active duty firefighter not completing the training requirements in a calendar year will be ineligible to attend any alarms until the deficient requirements are met. This will not count towards the training requirements of the new calendar year. The firefighter will be responsible for completing the current (new) year requirements. It shall be noted that at the Sept. 12, 2016 Fire District meeting that a motion was passed to extend the deadline for completing the EMS certifications for calendar year 2016. The completion date for 2016 is March 31, 2017. Any firefighter who was on military leave, medical leave, light duty or pregnancy leave for a portion of the calendar year will be addressed according to the following:

- a) OSHA---This refresher training must be completed as stated in this motion.
- b) Drills---These will be pro-rated based upon the number of months that the firefighter was active during the calendar year. Therefore, 1 drill is required for every 2 months of active duty. Any partial months will default to the lesser number of drills. For example, 5 months of active duty would require 2 drills.
- c) Active CPR card---This will be waived for the calendar year that the firefighter was on leave but must be met the following calendar year.
- d) Active basic First Aid card---This will be treated the same as the CPR card
